

# SOBAN SYEED

## Game Generalist

---

### WORK EXPERIENCE

#### **Akiyam Solutions Private Ltd | Remote**

Intern Unity Developer

September 2025 - Present

**HyperFlight Arena** - Imported and integrated plane models from 3D artists, ensuring proper integration in Unity.

**Simterra**- Programmed weapons inventory system with Scriptable Objects, made game assets in Blender & Inkscape.

**Outbreak Zero Hour** - Prototyped and polished a scene using Unity's ProBuilder, designed and textured supporting game assets in Blender.

#### **Horizon Simulations | Remote**

3D Model & Texture Artist Intern

July 2025 - January 2026

Created 3D models for simulation environments. Applied real-world measurements and visual references to ensure dimensional accuracy. Focused on asset optimization, modularity, and visual consistency across environments

#### **GameDevelopedia | Remote**

Intern Unity Developer

June 2025 - September 2025

**Ufo Dash** - Led a remote team of Unity developers, overseeing task delegation, technical guidance, and quality assurance  
Developed core gameplay systems, UI/UX features, level layouts & prototypes  
Integrated animations, sound, and artist-delivered assets into functional builds  
Maintained build documentation and coordinated QA testing [Released on Google Play Store]

PROFILE

Game Generalist specializing in development and 3D artistry. Known for collaborative leadership, clear communication, and a drive to create immersive, meaningful experiences.
